

Application for Funding

Application Instructions

Please complete all fields below for consideration to the **AANP Expanding Research Access (ERA) Open Access Award**. This funding will only cover the fee associated with a manuscript becoming open access at the time of publication and will not cover any other fees associated with publishing (e.g., manuscript editing, page charges, color charges and fees for supplementary material). If selected, AANP must be added to the acknowledgements section of the final article.

The application (this form) should be no more than three pages (not including this page). Applications must also include the accepted or final manuscript. Please send both the application (three-page maximum) and the manuscript (no maximum) to research@aanp.org. All manuscripts will be reviewed and scored based on eligibility criteria and will not be shared outside the reviewer group. Applicants will hear back from AANP one to two weeks (on average) after submission. Please let AANP know if the journal requires a faster turnaround.

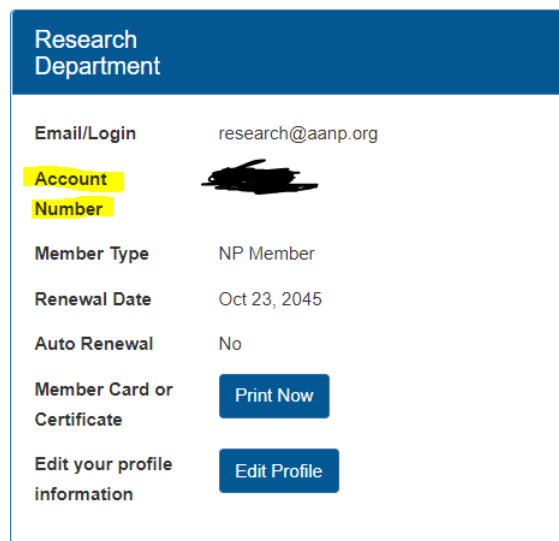

Criteria

Articles must meet the following criteria for consideration:

- The manuscript must have already been accepted by a peer-reviewed, scholarly journal.
- Different publication types within a journal are eligible for funding if the manuscript was peer reviewed.
- The article must be made freely accessible at the time of initial publication. Embargo periods for open access will not be covered.
- The manuscript must address AANP’s [strategic plan](#).

AANP Account Number

When you log into myAANP, this box is in your upper right corner.

The screenshot shows a user profile box for the Research Department. It contains the following information:
