

Outcomes for *A Case in the Life: COVID-19* (Final Report)

Start and End Date: Three webinars offered July 2020, October 2020, and February 2021

Target Audience:

This activity was intended for nurse practitioners working primarily in primary care practice, but it is anticipated NP students and NPs in other specialties will participate.

Actual Learners (in attendance): 7,988

Actual Completers: 3,517

Completers who reported seeing COVID-19 patients: 2,901

Activity description: This activity was a series of three webinars on COVID-19 with power point presentation and a tracer case study that follows the patient from primary care to the emergency department and back to primary care. Each live activity included a Q&A session and was then available as an on-demand session for 4 weeks for webinar #1, 9 weeks for webinar #2, and 10 weeks for webinar #3.

Credit Offered: Each webinar was approved for 2.5-2.67 contact hour(s) of continuing education (which included 0.25-0.5 hour(s) of pharmacology) by the American Association of Nurse Practitioners.

Learning Objectives: Objectives were changed or refined for each activity based on the currently available research, expert faculty recommendation, new national and international guidance, and participant feedback from previous webinars as learners had dynamic needs due to the on going COVID-19 pandemic.

Notes:

- These are not unique completers-some have completed more than 1 of the 3 webinars, thus they would be counted multiple times.
- 181/2,901 completers (6.2%) completed more than 1 of the 3 webinars: webinars 1&2=58, webinars 2&3=77, webinars 1&3=34, and webinars 1&2&3=12.

LEARNER PARTICIPATION

Total Learners (filtered for learners who report see COVID-19 patients n=2,901)

TOTAL Learners	NP	Nurse/NP student	Other APRN	RN	PA	Other not listed
2,901	91.6% (2,658)	3.5% (101)	1.4% (40)	1.9% (56)	0.7% (20)	0.9% (26)

Breakdown of NP certification (n=2,901)

TOTAL Learners	Family	Adult / Gerontology	Acute care/ Emergency	Other	NA, not certified as NP
2,901	74.3% (2,156)	13.4% (388)	5.5% (160)	5.4% (158)	1.3% (41)

Breakdown of practice setting* (n=2,901)

TOTAL Learners	Primary care	Urgent Care	Acute care	Retail/ Convenience
2,901	40.2% (1167)	8.8% (255)	8.7% (252)	3.5% (102)

***Additional practice sites:**
Long term care- 3.5% (101)
Pediatrics- 3.0% (88)
Emergency Room-3.0% (87)
Other- 29.3% (849)
