

# Outcomes for *A Case in the Life: COVID-19* (Webinar #1)

**Start and End Date:** 7/16/20 (registration/pretest opened)-8/25/20

## Target Audience:

This activity was intended for nurse practitioners working primarily in primary care practice, but it is anticipated NP students and NPs in other specialties will participate.

**Actual Learners (in attendance): 2,714**

**Actual Completers (took evaluation): 949**

**Activity description:** This activity was the first of three in a webinar series on COVID-19 with power point presentation and a tracer case study that follows the patient from primary care to the emergency department and back to primary care. Live activity included a Q&A session. The activity was offered live on 7/30/20 and available as an on demand for 3 weeks.

## Credit Offered

This activity is approved for 2.5 contact hour(s) of continuing education (which includes 0.25 hour(s) of pharmacology) by the American Association of Nurse Practitioners.

## Learning Objectives

1. Discuss the epidemiology, clinical features, diagnosis, and treatment of COVID-19
2. Identify patient populations at risk for severe COVID-19 disease
3. Compare diagnostic tests for SARS-CoV-2
4. Review patient counseling to prevent household and community transmission of SARS-CoV-2 when infected/potentially infected
5. Evaluate the best use of personal protective equipment (PPE) in the context of shortages
6. Explain COVID-19 infection control practices for providers including guidelines for PPE use

## LEARNER PARTICIPATION

**Total Actual Unique Learners (based on evaluations received n=949)**

TOTAL Learners	NP	Nurse/NP student	Other APRN	RN	PA	Other not listed
949	86.4% (820)	4.6% (44)	1.4% (13)	4.4% (42)	2.5% (24)	0.6% (6)

**Breakdown of NP certification (based on evaluations received & answers n=949)**

TOTAL Learners	Family	Adult / Gerontology	Acute care/ Emergency	Other	NA, not certified as NP
949	72.8% (691)	13.6% (129)	7% (67)	3.9% (37)	2.6% (25)

**Breakdown of practice setting\* (based on evaluations received & answers n=949)**

TOTAL Learners	Primary care	Acute Care	Urgent care	Emergency Room
949	45.7% (415)	8.9% (84)	8.2% (78)	3.8% (36)

\*Additional practice sites:  
 Long term care- 3.7% (35)  
 Retail/Convenience Care- 2.8% (27)  
 Other- 28.3% (269)

## Faculty

**Paula Tucker, DNP, FNP-BC, ENP-C, FAANP**  
 Assistant Clinical Professor  
 Emory University  
 Nell Hodgson Woodruff School of Nursing  
 Atlanta, Georgia

**Bob Smithing, MSN, FNP, ARNP, FAANP**  
 Adjunct Faculty Seattle Pacific University School of Nursing  
 Seattle, Washington  
 Clinical Director, FamilyCare of Kent, Kent, Washington

## Impact of activity

**Post Activity Gains**  
**47% (949 paired)**  
 Overall increase in mean percent correct answers from pre to post, P < 0.001

**14,691**  
 # of potential patients impacted monthly
