

EXPERT CONVERSATIONS IN HEART FAILURE:

**Multidisciplinary Approaches
for Optimal Management**

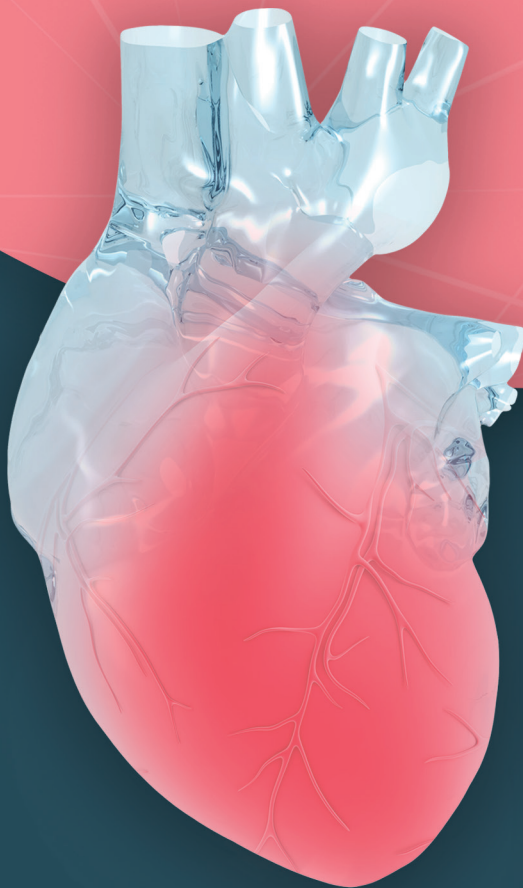

Wednesday, June 19, 2019

11:45 AM–1:00 PM

Sagamore Ballroom 6

Indiana Convention Center

Indianapolis, Indiana

Heart failure (HF) is a complex syndrome that often leads to hospitalization. This program will discuss the role of the multidisciplinary team in HF management, review the impact of HF hospitalization on patient outcomes, and provide insight on transitions of care and guideline-directed medical therapy.

The presenters are being compensated for their time.
