The Story Below
Alkaline phosphatase (ALP) and its role in hypophosphatasia (HPP)

Program Overview
Hypophosphatasia is a systemic, inherited metabolic bone disease characterized by low alkaline phosphatase activity that is commonly misdiagnosed due to its similarities with other musculoskeletal diseases.¹

In this program, we’ll cover:

- The role of ALP in bone mineralization and maintaining calcium and phosphate homeostasis
- Hypophosphatasia, a metabolic disease of the bones, and key signs and symptoms to evaluate for its accurate diagnosis
- Medical conditions that have overlapping presentations with HPP, including hypothetical patient case studies

1. Rockman-Greenberg, Pediatr Endo Rev. 2013

The intended audience for this program is healthcare professionals (HCPs) involved in the diagnosis of hypophosphatasia.

The program is sponsored by Alexion Pharmaceuticals, Inc.

Confidentiality Notice – This communication, including any attachments, is for the exclusive use of the intended recipient and may contain proprietary, confidential, or privileged information. If you are not the intended recipient, any use, copying, disclosure, dissemination, or distribution is strictly prohibited. If there is any reason to believe you are not the intended recipient, please notify the sender immediately by return email and delete this and destroy all copies.

Alexion is committed to complying with applicable laws and regulations and adhering to the highest standards in its interactions with healthcare professionals, including those that govern the provision of modest meals to attendees at company-sponsored events. Per industry guidelines, we are unable to accommodate spouses or guests at this event. The invitation is nontransferable and is only for individuals who have a professional interest in the educational information that will be shared at the event. In order to ensure accurate transparency reporting of meals, Alexion requires program attendees to sign in upon arrival. Subject to federal and state regulations, Alexion will disclose information related to meals provided to attendees, as applicable. In most cases, this information will be made public. Attendees may opt out of the meal by indicating so on their RSVP. Certain states and federal agencies have defined the maximum fair market value allowable for modest meals given to healthcare professionals or prohibited the receipt of meals at company-sponsored events. You are accountable for understanding such restrictions and complying with them. If you are impacted by those restrictions, we respectfully request that you not partake in the meal offered by Alexion at the event. Please ask the Alexion representative at the event for information about purchasing food at the event.
