History of FAANP

The Fellows of the American Academy of Nurse Practitioners (FAANP) program was established by the American Academy of Nurse Practitioners in 2000 to recognize nurse practitioner (NP) leaders who have made outstanding contributions to health care through NP clinical practice, research, education or policy, and to provide a forum to extend and enhance such efforts. In 2013, FAANP became the Fellows of the American Association of Nurse Practitioners with the merger of two national NP organizations.

From Think Tanks to the Mentorship Program, FAANP is dedicated to advancing the NP profession and enhance the AANP mission. FAANP members are visionaries impacting national and global health through priority initiatives, such as the creation and development of leadership and mentorship programs to foster the advancement of nurse practitioners and nurse practitioner students. All active members maintain membership in both AANP and FAANP. The FAANP leadership reports to the AANP Board of Directors.
